

ASKS FLAG DAY
BE OBSERVED

Mayor Morris Issues Proclamation For Tuesday.

REQUESTS SHOW OF COLORS

NATIONAL ASSOCIATION FAVORS GENERAL CELEBRATION.

Mayor Morris yesterday issued a proclamation for the general observance of Flag day. He expressed a desire that all citizens of Salt Lake display their national colors wherever possible June 14, the anniversary of the adoption of the stars and stripes as the national flag.

An appeal for the general observance of Flag day has been issued by the American Flag association. It urges that every citizen on that day display the flag in some way. Mayors of every city are requested to have flags displayed on all public buildings and to advertise the day as extensively as possible.

Text of Proclamation.

Mayor Morris' proclamation reads as follows:

Whereas, June 14, 1904, will be the 127th anniversary of the adoption of the stars and stripes as the flag of the United States; and

Whereas, said day should and is to be generally observed and celebrated throughout the domain of our glorious country in commemoration of the event;

Therefore, I, Richard P. Morris, mayor of Salt Lake City, do request that the citizens of Salt Lake City on said day display the national emblem as far as it is within their convenience, in order to express their approval of the sentiment awakened by such celebration. And I further request that the stars and stripes be hung to the breeze from every church, office, school and building, public and private, wherever possible, throughout the entire city on such day.

RICHARD P. MORRIS, Mayor.

THREE GEMS FROM THE WILLIAM MORRIS COLLECTION.

William Morris, the San Francisco art collector, who for the past two weeks has had on exhibition in the city one of the finest collections of pictures in the United States, is to close his exhibition Wednesday and will leave later in the week for the coast.

During Mr. Morris' stay here and during the exhibition of his paintings, the city has been very much interested in the exhibition of his paintings. The collection is one of the most successful, most skillfully executed works ever shown in the United States. It is one that the west should hang on to.

Hansen Lives in West. H. W. Hansen, who is widely known on the Pacific coast as a wonderful portrait painter of animal life, was born in Germany thirty-five years ago. He early left his fatherland for the New World, however, and was brought up in California. He took up lithographic work, but graduated under Mr. Morris' tutelage into higher art. Mr. Hansen is recognized as one of the most skillful draughtsmen in the country today. Besides producing many canvases

of much merit, Mr. Hansen has devoted himself for the past four years to the study of the life of the animal world in its natural outdoor and sporting papers. He resides in Alameda, Cal.

Mr. Morris, "is a picturesque incident of frontier life. It is more than that, it is a chapter of life in the early, unsettled west. It is a picture of an old hunter and is filled with a depth of feeling and life. 'Crystal Lake,' by J. W. Rix, is a picture finished only a short time before the death of the artist, who was one of America's greatest landscape painters. All who saw Mr. Morris' collection last year will remember the still life studies of Mary Hinkson. One piece from her brush this year stands out perhaps above all the other specimens in point of color and richness. It is 'The Flame of Tokay' and shows, besides the Tokay grapes in which one can see the juice sparkling, a burnished brass alms box of the Persians.

Several of the marine pictures are counted works of great excellence. One from the Paris salon, by W. E. Norton, is 'On the Grand Banks.' The flower piece by Raoul de Longpre, the pastoral scenes by Westerman, the portrait studies by Westerman and the rich studies of Louis XIV by De Pareille have all attracted considerable attention.

SEALER VISITS
OUTSIDE STORES

Finds Few Measures Up to Standard in City Suburbs.

MERCHANTS OBEY THE LAW

GLAD TO HAVE ORDINANCE STRICTLY ENFORCED.

See that every merchant and peddler with whom you trade uses only weights and measures bearing the city official stamp. All others are illegal and may be fraudulent. If you see the city seal is absent, help protect the public by notifying The Herald of the violation of the ordinance. The information will be transmitted to the proper authorities.

"I find that few of the merchants and peddlers in the outskirts of the city have correct measures," said City Sealer Richards last evening. "For the past few days I have taken a car out into the suburbs and have walked back, visiting the various stores on the way. I have also investigated the measures of all peddlers I have met on the streets. With two or three exceptions, I have not found, in the fifty or sixty grocery stores and markets I have visited during the past week, any of the measures correct. The peck and half peck boxes were invariably of wrong dimensions.

Willing to Obey Law. "The merchants all seemed willing to comply with the law and mounted procure new measures at once. Some even went so far as to say that they welcomed the movement, for the reason that they wanted to be sure that in the future their competitors would be forced to give a fixed amount of produce in every bushel, peck or quart as the case might be, whereas in the past they had been obliged to meet unfair competition because of no fixed or legal standard of measures."

Will Follow Them Up. "As soon as possible I shall go over the same territory and see that they have new measures. In case they have not done so and have not a reasonable excuse, I shall not hesitate to prosecute them."

Mr. Richards says that if he had the horse and buggy which he has asked for, he could do more work in one day than he can do now in a week.

The Scott-Strevell building at 165 Main street, which was recently purchased by O. J. Salisbury, has been retransferred to the old owner, O. J. Salisbury, who was yesterday at the county recorder's office by L. H. Farnsworth, cashier of Walker Bros' bank, for \$85,000.

Charles B. Felt, secretary of the Salisbury company, said last night that, although negotiations had been made for a transfer of the property, the deal had not been closed and the deeds filed. He refused to make known the persons interested in the purchase of the building.
